Re: Hazardous Waste Sites

Dear Mr. Glenn:

This responds to your February 16, 1990, request for information on the presence of species which are Federally listed or proposed for listing as endangered or threatened within the areas impacted by the following hazardous substance disposal sites in Maryland.

Fairchild Republic site, Washington County  
FMC Corporation, Curtis Bay, Baltimore City

We have reviewed the information you enclosed and are providing comments in accordance with Section 7 of the Endangered Species Act (87 Stat. 884, as amended; 16 U.S.C. 1531 et seq.).

Except for occasional transient individuals, no Federally listed or proposed endangered or threatened species are known to exist in the project impact area. Therefore, no Biological Assessment or further Section 7 Consultation is required with the Fish and Wildlife Service. Should project plans change, or if additional information on the distribution of listed or proposed species becomes available, this determination may be reconsidered.

This response relates only to endangered species under our jurisdiction. It does not address other Fish and Wildlife Service concerns under the Fish and Wildlife Coordination Act or other legislation.

Thank you for your interest in endangered species. If you have any questions or need further assistance, please contact Andy Moser of our Endangered Species staff at (301) 269-5448.
